ABOUT MYSELF

Aspiring chemical engineer specializing in simulation, equipment design and production management. Known for quick skill learning and I excel in critical thinking, problem-solving, and project management

EDUCATION AND TRAINING

30/09/2024 – CURRENT Padua, Italy

Master of Science in Chemical and Process Engineering University of Padua

Level in EQF EQF level 7

01/08/2018 – 08/09/2022 Thanjavur, India

Bachelors of Techology in Chemical Engineering SASTRA University

Website <https://sastra.edu/> | **Level in EQF** EQF level 6

WORK EXPERIENCE

Carborundum Universal Limited Chennai, India

Website <https://www.cumi-murugappa.com/>

Executive

24/08/2022 – 24/08/2024

- Headed the production of hot press resin snagging wheels in the abrasives division, increasing production value by 20%

- Proposed and secured approval for a huge investment brownfield project increasing production capacity through a comprehensive report

IICHe Students' Chapter SASTRA Thanjavur, India

Designer

01/2021 – 03/2021

Designed posters and professional certificates for technical events

PROJECTS

09/2023 – 05/2024

Automated Power BI Dashboard for Streamlined Operations Across Multiple Locations

Simplified the interpretation of complex, unstructured data with interactive UI easing decision making across the units

09/2022 – 05/2023

Process Optimization and Production improvement of Hot-pressed Snagging wheel (VSM Methodology)

Analyzed and improved manufacturing KPI using value stream mapping resulting in a 75% boost in production.

01/03/2022 – 01/07/2022

Model development for boiler efficiency along with the discussion on safety and waste recycling at CORI

Developed a user-friendly model to determine boiler efficiency, conducted sensitivity and error analysis

01/08/2021 – 01/12/2021

CFD study on flow through single-holed orifice in series

Analyzed orifices in series on the pressure drop and cavitation effects using CFD simulations

01/05/2021 – 01/09/2021

Optimization of Ducting Network Design using CFD

Enhance ducting efficiency by reducing pressure drop and improving mass flow distribution to cut operation cost
